|                         |

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. A video camera is positioned above the screen to record movements. A light source is placed to the left of the screen. A target is located on the screen. The participant's hand is positioned near the target. The setup is used to study the effects of target size and distance on movement accuracy.
